

TABLE OF CONTENTS

1.0	PURPOSE OF NIRB REVIEW	1
2.0	PROJECT DEFINITION.....	2
3.0	EIS OVERVIEW.....	4
4.0	SUBSTANTIVE DIRECTIVES.....	6
4.1	The Proponent	6
4.1.1	Cumberland & Regulatory Compliance.....	6
4.1.2	Cumberland’s Environmental Policy	6
4.1.3	Contractors to the Meadowbank Gold Project	7
4.2	Sustainable Development & Precautionary Principle	7
4.3	Baseline Data Collection & Methodology.....	9
4.3.1	Physical Environment.....	9
4.3.2	Biological Environment.....	13
4.3.3	Socioeconomic Environment.....	16
4.4	Traditional Knowledge & Archaeology.....	16
4.4.1	Traditional Knowledge.....	16
4.4.2	Archaeology	17
4.5	Public Consultation	18
4.6	Regional Context	23
4.7	Regulatory Regime	24
4.8	Land Tenure.....	24
4.9	Project Justification	26
4.9.1	Project Purpose & Rationale	26
4.9.2	Project Need.....	27
4.10	Project Description.....	27
4.10.1	Project Components & Activities	27
4.10.2	Project Design	43
4.10.3	Pace, Scale & Timing of Project.....	44
4.10.4	Future Development.....	44
4.10.5	Technology.....	45
4.11	Project Alternatives	45
4.11.1	Site & Footprint.....	45
4.11.2	Mining Methods	47
4.11.3	Pit Dewatering Dikes	48
4.11.4	Gold Recovery.....	48
4.11.5	Tailings Processing Technology	48
4.11.6	Materials Transportation	49
4.11.7	Energy Sources.....	49
4.11.8	No-Go Alternative.....	49
4.12	Description of Physical Environment	50
4.12.1	Bedrock Lithology, Morphology & Structures.....	50
4.12.2	Geomorphology & Soils	51
4.12.3	Permafrost.....	52
4.12.4	Potential for Instability	53

4.12.5	Hydrology / Hydrogeology	54
4.12.6	Current & Projected Groundwater Use	55
4.12.7	Sediment	55
4.12.8	Water Quality.....	56
4.12.9	Air Quality & Noise Levels.....	59
4.12.10	Climate & Climate Change.....	60
4.13	Description of Biological Environment	61
4.13.1	Vegetation & Wildlife Habitat.....	61
4.13.2	Wildlife.....	62
4.13.3	Birds	66
4.13.4	Fish & Other Aquatic Organisms.....	68
4.14	Description of Socioeconomic Environment	72
4.14.1	Regional & Local Socioeconomy	72
4.14.2	Archaeology & Heritage Resources.....	76
4.14.3	2005 All-Weather Road Archaeology Survey	76
4.14.4	Traditional Knowledge.....	77
4.15	Spatial Boundaries.....	78
4.15.1	Air Quality & Noise	78
4.15.2	Physical Ecosystem	78
4.15.3	Terrestrial Ecosystem	78
4.15.4	Fish Habitat & Fish Population.....	79
4.16	Temporal Boundaries.....	80
4.17	Data Acquisition Methodology & Documentation	80
4.18	Data Analysis & Reporting.....	80
4.19	Impact Assessment Methodology.....	80
4.19.1	Summary of Key Concepts	81
4.19.2	Selection of Valued Ecosystem Components	82
4.19.3	Describing & Classifying Impacts.....	83
4.20	Indicators & Criteria	84
4.21	Impact Assessment.....	85
4.21.1	Project Components & Activities.....	85
4.21.2	Physical & Biological Environmental Components	86
4.21.3	Biological Diversity	117
4.21.4	Social, Economic & Cultural Components	117
4.21.5	Impacts of the Environment on the Project	130
4.22	Cumulative Effects Assessment	130
4.23	Summary of Impacts before Mitigation	132
4.24	Environmental Management & Mitigation.....	132
4.24.1	Overview	132
4.24.2	Management of Impacts on Physical Environment.....	134
4.24.3	Management of Impacts on Socioeconomic Environment.....	143
4.25	Residual Impacts	148
4.26	Monitoring & Follow-Up.....	148
4.26.1	Overview	148
4.27	Auditing & Continual Improvement System	164
4.28	Closure & Reclamation	165
4.29	Outstanding Issues	167
5.0	CONSULTANTS & ORGANIZATIONS, ABBREVIATIONS & REFERENCES	1
5.1	List of Organizations	5
5.2	Acronyms, Abbreviations & Units of Measurement	8
5.3	Literature Cited	13

LIST OF TABLES

4.1	Pit Rock Lithology & Sample Distribution.....	11
4.2	Proportion of Tailings from Each Deposit & Sample Distribution.....	11
4.3	Community Meetings & Involvement.....	19
4.4	Required Approvals, Permits & Licenses.....	25
4.5	Grandfathered Crown Leases.....	26
4.6	NTI Exploration Concessions.....	26
4.7	Rock Types & Potential for ARD.....	32
4.8	Water Balance Model Summary – Portage Mining & Milling Area.....	34
4.9	Water Balance Model Summary – Vault Mining Area.....	36
4.10	Summary of Portage Rock Storage Facility Options.....	46
4.11	Summary of Tailings Storage Facility Options.....	47
4.12	Summary of Kinetic Testwork.....	51
4.13	Average Baseline Water Quality in Third Portage, Second Portage & Wally Lakes.....	58
4.14	Estimated Average Monthly Temperature & Precipitation – Meadowbank Site.....	60
4.15	Area Summary of ‘Wildlife’ ELC Units in the Mine Site LSA, Access Road LSA & RSA..	62
4.16	Spatial boundaries for Terrestrial Ecosystem VECs (in radius centered on project facilities).....	79
4.17	Significance Evaluation Matrix for Project Impacts.....	85
4.18	Peak Horizontal Ground Accelerations for Meadowbank Site.....	86
4.19	Emission Rate of Contaminants from the Power Plant.....	90
4.20	Mobile Sources – Total Emissions.....	90
4.21	Quantified Habitat Losses in the Meadowbank LSA.....	100
4.22	Input-Output Interprovincial Model Summary Results.....	129
4.23	Measurable Regional Cumulative Effects Potential.....	132
4.24	Summary of Project Impacts before Mitigation.....	133
4.25	Quantities of Waste Rock Types.....	140
4.26	Potential Key Elements of the Environmental Monitoring Plan.....	149

LIST OF FIGURES (AT THE END OF VOLUME 1)

2.1	Location Map within Nunavut Showing Western Churchill Geological Province Boundary
2.2	Parks & Conservation Areas in Kivalliq Region
2.3	Site Access & Transportation Alternatives
2.4	Baker Lake Storage & Marshalling Area
2.5	Proposed All-Weather Access Road
2.6	Proposed Mine Site Layout
3.1	EIS Support Documentation Organization Chart
4.1	Generalized Linkage Diagram (VECs)
4.2	Generalized Linkage Diagram (VSECs)
4.3	Baseline Vegetation Plots within the LSA and RSA
4.4	Aerial Survey Transects in the RSA
4.5	Breeding Bird Survey Plots within the LSA and Control Area
4.6	Traditional Knowledge Phase 1 Interview Questions
4.7	Traditional Knowledge Phase 2 & Phase 3 Interview Questions
4.8	Land Tenure Map
4.9	Development Sequence Years -1
4.10	Development Sequence Years 1
4.11	Development Sequence Years 3
4.12	Development Sequence Years 5
4.13	Development Sequence Years 7
4.14	Development Sequence Years 8
4.15	Regional Geology
4.16	Process Flowsheet
4.17	Tailings Deposition Plan

- 4.18 Proposed Tailings Dike Design Alternatives Typical Cross-Section
- 4.19 Water Management Plan
- 4.20 Typical Dewatering Dike Cross-Section of Second Portage, Goose Island & Bay Zone Dikes
- 4.21 Proposed Construction Plan & Schedule
- 4.22 Proposed Mine Production Schedule
- 4.23 Portage Rock Storage Options
- 4.24 Tailing Storage Options
- 4.25 Permafrost Map of Canada
- 4.26 Historic Sampling Stations & Flow Directions (1996-2003)
- 4.27 Inferred Regional Groundwater Flow
- 4.28 Ecological Land Classification of the RSA
- 4.29 Estimated Numbers of Caribou in the RSA Based on Aerial Surveys
- 4.30 Seasonal Number & Distribution of Caribou Recorded During Aerial Surveys in the Meadowbank RSA
- 4.31 Location of Meadowbank Gold Project in Relation to Known Caribou Calving Grounds & Water Crossings in Nunavut
- 4.32 Relative Polygon Value in Second & Third Portage Lakes
- 4.33 Relative Polygon Value in Vault & Wally Lakes
- 4.34 Relative Abundance of Fish Species
- 4.35 Mine Site, Winter Road, Access Road Archaeological Survey
- 4.36 Traditional Land Use – Fishing, Hunting, Caching & Caribou Migration
- 4.37 Traditional Land Use – Graves, Spiritual Areas & Camps
- 4.38 Spatial Boundaries Regional & Local Study Areas
- 4.39 Seismic Zoning Map
- 4.40 Project Lakes Monitoring Sites
- 4.41 Permafrost & Hydrology Monitoring Stations
- 4.42 Closure Concept

LIST OF APPENDICES (VOLUME 2)

- A Additional Pre-Hearing Conference Commitments
- B Environmental Assessment Impact Matrices
- C Socioeconomic Statistical Data
- D Wildlife Habitat Losses (Footprint & Effective) in the Mine Site & Access Road LSAs
- E Maximum Prediction Water Quality Concentration
- F Conformity Submission Letters to NIRB
- G EIA Submission Errata
